

#SAFERSANDRINGHAM

Can you spare 15 minutes to help us
make Sandringham safer?

Safe road use and traffic management has been one of the top issues raised by the community with SPiCE.

We want to use the power of our community to gather some data on traffic in Sandringham, to present to AT so we can seek meaningful safety improvements for the entire village.

You can help us by becoming a citizen scientist and filling out our **15 minute Traffic Report Form.**

All you need to do is
grab a Traffic Report
Form and send it
back to us!

It's easy. Pick a spot to stand in the Village with a good view of Sandringham Road, and mark your location on the map.

Watch for any traffic incidents, and tally them in the appropriate box. Once completed, take a photo of your form and send it to **georgia@spice.org.nz OR drop it in the post box in front of Sandringham Reserve Playground.**

We'd love to see photos of you gathering this data for our FB and Instagram pages.

Please use our campaign hashtags to spread the word:
#callingAT #safersandringham
